

Florian Theyermann (Director)

Florian joined FCF in January 2006. He coordinates transaction teams with regards to corporate financing as well as merger & acquisition transactions. His responsibilities include process management, transaction preparation and execution.

He focuses on the “DeepTech” (sector of companies whose product or service offering is based on substantial scientific advances and high-tech engineering that creates real technological innovation and patents / IP). Florian and his team support growth companies – especially in the cleantech sector – in raising debt and equity capital.

Before FCF, Florian worked as a consultant at zeb.rolfes.schierenbeck.associates in Munich, focusing on management advisory for the financial industry.

Florian received his finance degree from the University of St.Gallen / Switzerland.
